## REGULAR CUBAN LETTER.

TRINIDAD, CUBA.—Camp, "We want  
to go home," February 23d, 1899.

The most notable event of the week  
was the celebration of George Wash-  
ington's birthday, Wednesday. The  
day was fittingly observed in Camp  
Tennessee, there being no drills, no  
fatigue duty and no dress parade.

The natives observed the day also.  
In the city, all the stores closed dur-  
ing business hours. In the evening the  
plaza was brightly illuminated and  
hundreds gathered there to have a good  
time.

William Bullock, private of company  
A, died of chills and fever last Monday  
morning, at six o'clock. His home was  
Briceville, Tennessee, and was a Chris-  
tian young man. He enlisted in the  
Fourth Tennessee regiment last July,  
and acquitted himself as a true and  
faithful soldier, always at his post of duty.  
He was buried with military hon-  
ors on Tuesday at 11 o'clock.

Company A, under command of Capt.  
Fitzgerald, an ambulance containing  
several ladies, followed the hearse to  
the grave. On the casket several beau-  
tiful wreaths of flowers were placed,  
made by Mrs. Fitzgerald and Mrs.  
Hoss. Chaplain Price conducted the  
funeral obsequies, and paid a beautiful  
tribute to his life and character, after  
which several songs were sung and  
the usual military salute fired. Taps  
were sounded by the bugle corps and  
all that was mortal of William Bullock  
was laid to rest beneath the sod to  
await the final summons, when, above  
the cannon's roar and the bugle's shrill  
call, may be heard the voice of God  
saying, "well done thou good and  
faithful servant."

Brigadier-General Breckinridge vis-  
ited the camp last Saturday, and gave  
it a thorough inspection. It was his  
intention to inspect the men in heavy  
marching order, but owing to the large  
number of sick men in the regiment,  
this was done away. He did not speak  
very complimentary of the location of  
camps. The blue book regulations re-  
quire that troops shall not be stationed  
within three miles of the suburbs of a  
town. Our camp is in the suburbs of  
Trinidad. Instead of being above the  
town, we are under it, and the town  
being in such a dirty, filthy state, has  
naturally produced a large percent-  
age of the sickness that now exists.

Colonel Brown's wife and family of  
Rogersville; Mrs. McFerrin, Mrs. Fitz-  
gerald, Mrs. Polk, of Knoxville; Mrs.  
Epler, Mrs. Gillespie and Mrs. E. E.  
Hoss, of Nashville, came last Satur-  
day. As they entered the camp the  
band played Dixie, and they applauded  
enthusiastically. It seems unnatural  
to see the smiling faces of American  
women.

Mrs. Hoss brought with her a great  
many valuables for the sick, furnished  
by the Fourth Tennessee Relief Corps  
of Nashville.

LT. Matson came in from San Juan  
Valley last night, "looking better and  
weighing more than ever in his life,"  
he said.

GEORGE P. HAYES.

Schley-Sampson.

Washington, March 4.—The senate,  
in confirming the nomination of Ad-  
miral Schley and placing him two  
points ahead of Admiral Sampson, not  
only restores Schley to his old place  
before the war, but does something  
more for him. It makes him a  
senior Rear Admiral. Under the pro-  
motion of the personnel bill the eight-  
teen rear admirals are divided into two  
classes, senior and junior, the first  
nine to rank with major-generals in the  
army and the lower nine as brigadier-  
generals in the army, with correspond-  
ing pay. As Rear Admiral Schley is  
No. 9 on the list of rear admirals; he is  
a senior with relative pay of a Major-  
General of the army, while Sampson,  
who is No. 17, is now a junior, with  
rank and pay of only Brigadier-Gen-  
eral.

Curing Appendicitis.

An Eastern doctor has intrenched  
himself behind a new theory for the  
cure of appendicitis, which cuts out  
operations of any kind.

"I can recall," says this, "100 cases  
treated with symptoms of this malady—  
or of typhlitis or perityphlitis, as it  
was formerly called—but I have never  
yet met a case of it in which I felt it  
was my duty to cut out or which terminated  
fatally. Influenced by the prevailing  
crave to cut, time and again in coming  
to new cases of this kind I have thought  
'Now, sir, your time has come; in this  
case you must cut.' But, presto! simple  
medical treatment again prevailed.  
There are others unimpeachable prac-  
titioners who share my views in this  
malady, one showing 49 out of 51 cases  
successfully treated—being more than  
96 per cent.

"My treatment for appendicitis is  
free calomel-and-soda purgation, sup-  
plemented by hot applications, to be  
followed by a saline if action is too slow."

Little hope is entertained of the re-  
covery of Queen Marie Henriette of  
Belgium.

The General Assembly will take an-  
other recess. The resolution providing  
for a recess from Friday, March 8, to  
Tuesday, March 14, was adopted by the  
House to-day. That it would be con-  
curred in by the Senate was a certainty,  
as that body had placed itself on record  
on the question and has been anxiously  
awaiting the action of the House.

The Senate concurred in the resolution  
with but slight opposition.
